PROFESSIONAL SUMMARY

Data-focused Master of Information Technology student specialising in Data Visualisation at Curtin University, with a background in Statistics and Finance. Experienced in data cleaning, data modelling, forecasting, and dashboard development using Power BI, Tableau, Python, R, SQL, and Excel. Interested in using data visualisation and analytical storytelling to support evidence-based business decisions.

EDUCATION AND TRAINING

Master of Information Systems and Technology

2025 – Present

Curtin University, Western Australia

Specialisation: Data Analytics and Visualisation | CWA: 83.57

Bachelor of Science and Technology

2019–2023

Thammasat University, Thailand

Major: Statistics | Minor: Finance

KEY SKILLS

Data Analysis and Visualisation – Skilled in using Power BI, Tableau, Excel, Python, and R to clean, analyse, and present data insights through dashboards and reports.

Data Modelling and Database Design – Knowledge of SQL, ERD design, dimensional modelling, star schema design, and database structure.

Forecasting and Statistical Modelling – Experienced in linear regression, time-series analysis, forecasting, prediction intervals, and model interpretation using R.

Communication and Data Storytelling – Able to explain data findings clearly through dashboards, reports, and presentations.

RELEVANT EXPERIENCE

Digital Marketing & Data Analytics Intern

Nov 2022 – Jan 2023

Like Me Co., Ltd. – Bangkok, Thailand

- Supported digital marketing campaigns through social media content, product research, and competitor analysis.
- Conducted basic data tracking and market research to support campaign planning and business decisions.
- Assisted with content writing and customer trend analysis to improve marketing communication.
- Developed practical experience combining marketing insight with data-informed decision-making.

ACADEMIC PROJECTS

FreshMart Sales Performance Dashboard

Power BI, Power Query, DAX, Data Modelling

- Built a Power BI retail sales dashboard using Power Query, DAX, and star schema modelling to analyse revenue, margin, product performance, and store performance.
- Cleaned and standardised source data, including duplicate removal, category correction, and data type validation.
- Created KPI measures and visual insights to identify sales trends, product/category performance, and district-level performance gaps.

Renewable Electricity Transition Dashboard

Power BI, DAX, R, Forecasting

- Developed a Power BI dashboard to analyse Australia's renewable electricity transition from 2005–2024 and forecast progress to 2035.
- Cleaned and standardised multi-country electricity data, including energy source mapping and GWh-to-TWh conversion.
- Created DAX measures for renewable share, renewable generation, non-renewable generation, and renewable source mix.
- Used R-based linear regression to forecast renewable generation and renewable share with prediction intervals and model statistics.

Football Club Database Design and SQL Implementation

SQL, Oracle, ERD, Database Design

- Designed a relational database model for a football club management system.
- Developed an ERD and business rules to define relationships between key entities.
- Created a logical database schema with clear table structures, relationships, and constraints.
- Built and tested Oracle SQL tables to support accurate data storage and relational integrity.

ADDITIONAL EXPERIENCE

Bartender / Wait Staff

Nov 2023 – Present

Six Senses Gourmet, Leederville, Western Australia

- Delivered customer service in a fast-paced restaurant environment, including taking orders, serving food and drinks, bartending, and processing bills.
- Communicated clearly with customers and team members to support smooth service during busy periods.
- Managed multiple tasks under pressure while maintaining accuracy with orders, payments, and customer requests.
- Supported a positive dining experience by responding to customer enquiries professionally.

PROFESSIONAL DEVELOPMENT

Google Data Analytics Certificate Courses

Completed May 2026

Coursera / Google

- Foundations: Data, Data, Everywhere
- Ask Questions to Make Data-Driven Decisions
- Prepare Data for Exploration

ACHIEVEMENTS

Best Business Case Pitch — “Branding is All About Counting”

2023

NSO Data Camp, Thailand

- Selected for Best Business Case Pitch after presenting a data-driven business model using tourism statistics, customer segmentation, and branding strategy.
