## PROFESSIONAL SUMMARY

Master of Information Systems and Technology student at Curtin University (CWA 83.57), specialising in data analytics and visualisation, with a bachelor's degree in statistics and finance. I build Power BI dashboards on data I have audited and modelled myself, and I forecast in R so the method can be checked. Four portfolio projects run on their real data at waranyu-cv.vercel.app. Seeking a data analyst internship in Perth, and graduate roles from July 2027.

## EDUCATION AND TRAINING

### Master of Information Systems and Technology

2025 – Present

Curtin University, Western Australia · Specialisation: Data Analytics and Visualisation · CWA: 83.57

### Bachelor of Science and Technology

2019 – 2023

Thammasat University, Thailand · Major: Statistics · Minor: Finance

## KEY SKILLS

### Data Analysis and Visualisation

Skilled in using Power BI, Tableau, Excel, Python, and R to clean, analyse, and present data insights through dashboards and reports.

### Forecasting and Statistical Modelling

Experienced in linear regression, time-series analysis, forecasting, prediction intervals, and model interpretation using R.

### Data Modelling and Database Design

Knowledge of SQL, ERD design, dimensional modelling, star schema design, and database structure.

### Communication and Data Storytelling

Able to explain data findings clearly through dashboards, reports, and presentations.

## ACADEMIC PROJECTS

### FreshMart Sales Performance Dashboard

Case study ↗

Power BI · Power Query · DAX · Data Modelling

- Built a Power BI retail sales dashboard using Power Query, DAX, and star schema modelling to analyse revenue, margin, product performance, and store performance.
- Cleaned and standardised source data, including duplicate removal, category correction, and data type validation.
- Created KPI measures and visual insights to identify sales trends, product/category performance, and district-level performance gaps.

Renewable Electricity Transition Dashboard

Case study ↗

Power BI · DAX · R · Forecasting

- Developed a Power BI dashboard to analyse Australia’s renewable electricity transition from 2005–2024 and forecast progress to 2035.
- Cleaned and standardised multi-country electricity data, including energy source mapping and GWh-to-TWh conversion.
- Created DAX measures for renewable share, renewable generation, non-renewable generation, and renewable source mix.
- Used R-based linear regression to forecast renewable generation and renewable share with prediction intervals and model statistics.

Football Club Database Design and SQL Implementation

Case study ↗

SQL · Oracle · ERD · Database Design

- Designed a relational database model for a football club management system.
- Developed an ERD and business rules to define relationships between key entities.
- Created a logical database schema with clear table structures, relationships, and constraints.
- Built and tested Oracle SQL tables to support accurate data storage and relational integrity.

RELEVANT EXPERIENCE

Digital Marketing & Data Analytics Intern

Nov 2022 – Jan 2023

Like Me Co., Ltd. – Bangkok, Thailand

- Supported digital marketing campaigns through social media content, product research, and competitor analysis.
- Conducted basic data tracking and market research to support campaign planning and business decisions.
- Assisted with content writing and customer trend analysis to improve marketing communication.
- Developed practical experience combining marketing insight with data-informed decision-making.

ADDITIONAL EXPERIENCE

Bartender / Wait Staff

Nov 2023 – Present

Six Senses Gourmet, Leederville, Western Australia

- Delivered customer service in a fast-paced restaurant environment, including taking orders, serving food and drinks, bartending, and processing bills.
- Communicated clearly with customers and team members to support smooth service during busy periods.
- Managed multiple tasks under pressure while maintaining accuracy with orders, payments, and customer requests.
- Supported a positive dining experience by responding to customer enquiries professionally.

ACHIEVEMENTS

Best Business Case Pitch — “Branding is All About Counting”

2023

NSO Data Camp, Thailand

Selected for Best Business Case Pitch after presenting a data-driven business model using tourism statistics, customer segmentation, and branding strategy.

PROFESSIONAL DEVELOPMENT

Google Data Analytics Certificate Courses

Completed May 2026

Coursera / Google

- Foundations: Data, Data, Everywhere
- Ask Questions to Make Data-Driven Decisions
- Prepare Data for Exploration
